

TGIF - 16 October 2020

Title: "When the sea freezes" Pat Langhorne, Emeritus Professor, University of Otago.

Photographer - Madelaine Gamble
Rosevear

Photographer - Gemma Brett (EM_Bird)

Pat will be touching on the subject of how the freezing of the ocean influences the climate in the northern and southern hemispheres. What is happening to sea ice in the current climate and what do future projections say? One of the problems is that it is difficult to measure the thickness of the sea ice. This has been a research focus of the team in recent years.

We are sure that this will be a most interesting evening and look forward to seeing you on Friday night.

By popular demand, our chef for the evening will be Frank McCarthy and Rae. Please note that our dinner will be served at the earlier time of 18:00.

We look forward to seeing you on the 16 October 2020. Pre-dinner drinks from 5:30pm & dinner at 18:00.

Please remember to contact Ann (oyc.social@gmail.com) by Wednesday morning with numbers for dinner and any specific dietary requirements. Please note, although it may be possible to take bookings after Wednesday morning, it does make it very hard for our Chef to calculate how many to cater for.
